I am a university student with a strong passion for mobile application development and UI/UX design. With a background in information technology, I am committed to integrating education and technology to create innovative digital solutions. My focus is on designing intuitive and engaging user experiences while continuously improving my skills to develop functional applications that make a positive impact.

EDUCATION

Brawijaya University 2022 - Present

Information Technology Education

Pursuing a Bachelor's degree in Information Technology Education with a focus on technology, software development, and digital solutions.

SMAN 1 Kota Bima 2019 - 2022

IPA

ORGANIZATIONAL AND COMMITTEE EXPERIENCE

Public Relations PORSIMABA FILKOM UB Sep 2024 - Nov 2024

Handled communication and promotion for PORSIMABA FILKOM UB, ensuring effective information dissemination and fostering participant engagement.

Content Designer Bidan Membantu Sep 2024 - Nov 2024

Responsible for creating visually appealing and informative content, including Instagram feeds and posters, to effectively communicate health-related messages. This role involves designing layouts, selecting appropriate visuals, and crafting engaging designs that align with branding guidelines and resonate with the target audience. Key contributions include enhancing social media presence, supporting promotional campaigns, and ensuring the delivery of impactful and professional visual materials.

Vice Head of The Student Advocacy and Welfare Department Jan 2024 - Nov 2024

Assisted in leading the department to address student concerns, advocate for their rights, and implement programs supporting student well-being and academic success.

Staff of The Student Advocacy and Welfare Department Jan 2023 - Dec 2023

As a staff member of the Student Advocacy and Welfare Department, my responsibilities include providing resources and guidance to students, addressing their concerns, and advocating for their well-being. I assist in organizing and implementing programs and initiatives that promote student welfare and meet their needs. Effective communication is key, as I maintain open lines with students, listening to their concerns and conveying important information to the department. Additionally, I work closely with other department members and stakeholders to ensure the successful delivery of services and programs. In times of crisis, I respond promptly, offering support and connecting students with the necessary resources.

Vice head of the Equipment Division for LKMM TD DSI FILKOM 2023**Sep 2023 - Nov 2023**

Serving as the Vice Head of the Equipment Division for LKMM TD DSI FILKOM 2023 provided me with valuable experience in logistics and event management. I honed my skills in coordinating resources, managing inventory, and ensuring the timely delivery of equipment for various activities. This role also enhanced my leadership abilities, as I was responsible for overseeing a team, delegating tasks, and resolving issues under pressure. My involvement in this major event taught me the importance of meticulous planning, adaptability, and teamwork in achieving successful outcomes.

Informatics Intern Staff Division of Advokesma Departement**Sep 2022 - Dec 2022**

Serving as the Vice Head of the Equipment Division for LKMM TD DSI FILKOM 2023 provided me with valuable experience in logistics and event management. I honed my skills in coordinating resources, managing inventory, and ensuring the timely delivery of equipment for various activities. This role also enhanced my leadership abilities, as I was responsible for overseeing a team, delegating tasks, and resolving issues under pressure. My involvement in this major event taught me the importance of meticulous planning, adaptability, and teamwork in achieving successful outcomes.

COMPANY AND INSTITUTION EXPERIENCE

Mobile App Developer | Gamatecha Solusi Nusantara**Jul 2025 - Dec 2025**

Contributed to the development and improvement of mobile applications by building features, fixing bugs, and optimizing performance to enhance user experience.

Mobile App Developer SE | Faculty of Computer Science Brawijaya University**Feb 2025 - Mei 2025**

Developing a mobile application for PLP (School Field Introduction Program) using Flutter for the frontend, MySQL for the database, and Laravel for the backend.

Mobile App Developer | CV POLLACHEIAL NETWORK TECH**Jan 2025 - Mar 2025**

As a Mobile Frontend Developer, I design and develop responsive, interactive, and user-friendly mobile applications using Flutter. I ensure seamless user experiences by integrating REST APIs and applying modern UI/UX principles.
