Pentingnya Gizi Ibu Hamil untuk Mencegah Stunting

Tahukah Bunda bahwa asupan **gizi** selama kehamilan memainkan peran penting dalam **mencegah stunting** pada si kecil

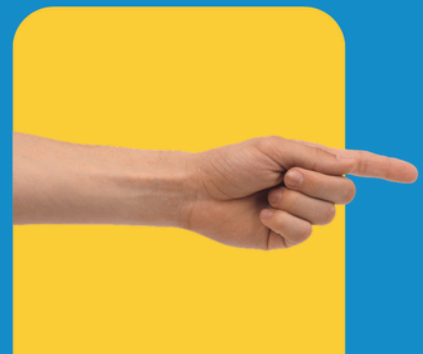

Berdasarkan hasil **Survei Status Gizi** Indonesia (SSGI) tahun 2022, angka stunting di Indonesia masih cukup tinggi, yakni 21,6%.

Meskipun terjadi penurunan dari 24,4% pada tahun 2021, masih diperlukan upaya besar untuk mencapai **target penurunan stunting** sebesar 14% pada tahun 2024.

Beberapa nutrisi yang perlu ibu hamil penuhi selama masa kehamilan
